PROFESSIONAL EXPERIENCE

Full Stack Developer | InterimCAPS, London, UK

[01-06-2022 - Present]

- Development and management of online applications using **MERN** technologies for **e-learning, e-commerce, blogs, website builder and content-centric websites**.
- Used **React-Django-PostgreSQL** technologies for building **booking and RBAC** applications.
- Orchestrated team meetings, conducted **product demos**, and delivered impactful presentations to stakeholders
- Assumed a pivotal role in mentoring and **training entry-level developers**.
- Built a **Role-based multi-user web application** from scratch
- Played an important role in creating a **Appointment booking application** for hospitals.
- Led my team in the development of a **Website builder application** which is an application which creates personalized websites for clients through the utilization of predefined templates and Content Management System (**CMS**).
- Implemented **multiple features** like AWS's Machine Learning models like textract and S3 for file storage, Calendly for booking, File upload and download automation and built Readymade react modules which are used to avoid doing repeated tasks, thus saving plenty of time for the company.

SQL DATABASE

MySQL

PostgreSQL

DATABASE GUI

PhpMyAdmin

PGAdmin

NO-SQL DATABASE

Redis

DATA ANALYSIS

Tableau
